

Ezzelden Mahmoud

Phone : 010 80 17 69 12

Location : Al-Ahram Gardens

Gmail : ezzelden.hashem@gmail.com

Education

Bachelor's degree in agricultural sciences at Cairo University
Animal Production Department, Livestock Division

Graduation Date: JAN 2024

Experiences

Graphic Designer

I worked as a graphic designer in the “Graphic” printing and design office

Al-Ahram Gardens

Feb 2024 – May 2024

Tracking and sticker design officer

I used to design product's labels “stickers” in “Wafra for Export Company” and logging material consumption from BarTender to Excel and assign production records to data sheets

Also, I was responsible for traceability for product's timeline from agricultural land to the customers in case of any issue or problem happening in that timeline

Wafra Farm, Cairo-Alex Desert Rd

Dec 2024 – Mar 2025

Achievements

Digitalization of Production Records

I improved the daily production tracking process by replacing time-consuming paper-based recording with a digital system.

This automation significantly reduced time spent on data entry,

Streamlined error detection and enhanced overall production analysis

Wafra for Export

Resolving Critical Printer Downtime

Addressed a major technical issue that caused one of the two main product label printers to malfunction due to a driver error.

Using my technical skills, I quickly identified and resolved the problem, restoring full production speed and avoiding delays that would normally require 24+ hours through standard support procedures.

Wafra for Export

Increasing Revenue with Social Media

Noticed that the business relied too much on walk-in customer.

I started creating social media posts to share them on Facebook, this helped bring in more clients and increased our income by 10%

Graphic for print

Reaching More Clients in Busy Areas

Suggested going to busy streets and talking directly to shop owners about our services.

This helped us to find new customers and grow our clients list.
